

LIBER 11 PAGE 532
STEPHEN LEE MAGNESS, M. D.
908 FREDERICK ROAD
CATONSVILLE 28, MARYLAND

Oct. 29, 1954

To Whom it May Concern;

I have this date examined Mary V. Thompson at
Catonsville Convalescent Home.

This patient is completely aphasic and devoid of
contact with her surroundings. She is not oriented as
to time or place and does not respond to the simplest
questioning.

She is completely incapable of transacting any affairs
what soever, business or otherwise. The nursing staff
of the home where she resides must help her in her
simplest physical needs.

Impression-

1. Senile psychosis, with personality
deterioration, confusion and aphasia.

Sincerely,

Stephen Lee Magness
Stephen Lee Magness, M.D.
